Architect

Pearson/Peters Associates PLC
201 Kentucky Avenue
Lexington, KY 40502
(859)233-1213

BEX Construction was selected for the construction of the new Catholic worship facility to serve the growing population of Berea. The new 4,900 square foot project includes a formal worship area with seating for 300, a gathering area and entry, chapel, sacristy, restrooms and storage areas. The new facility was designed to complement the existing church, which was built in the 1960's, and incorporates modern updates.
